

# RESEARCH CONTRACT

Instituto de Microelectrónica de Sevilla, IMSE-CNM  
(CSIC y Universidad de Sevilla)

A contract is offered to work in the field of Electronic Technology and Communications, with emphasis on **reliability-aware design of integrated circuits** in the Research Project

## **THE VARIABILITY CHALLENGE IN NANO-CMOS: FROM DEVICE MODELING TO IC DESIGN FOR MITIGATION AND EXPLOITATION**

**PID2019-103869RB-C31**

Candidates must have a Master degree from the European Higher Education Area,

preferably in any of the following disciplines:

Electrical/Electronic Engineering

Telecommunications Engineering

Physics

**For further information, please contact:**

**Prof. Francisco V. Fernández (pacov@us.es)**

**Dr. Rafael Castro López (castro@imse-cnm.csic.es)**
